

ENVIRONMENTAL CONSULTANTS LTD

ENVIRONMENTAL POLICY

Vega Environmental Consultants Ltd regards environmental protection as an essential requirement of good business practice and is committed to continually improving its environmental performance. Vega EC will work towards reducing the impacts of its activities by conducting its business in an environmentally conscious manner. To achieve this, we will:

- comply with all regulatory legislations and requirements relevant to our business.
- manage and reduce waste through re-use, recycle and safe disposal.
- encourage the efficient use of our utilities and take measures to improve our energy efficiency.
- manage our premises in an environmentally sensitive manner.
- actively involve employees to ensure the policy principles are implemented and provide training to increase staff environmental awareness.
- promote continual improvements by setting and reviewing objectives and targets.

This policy will be brought to the attention of all employees and will be made available to the public.
